☎ 9848982088

📍 08-130-08, chinnaturakaplem(v), Narasaraopet(M), Guntur(D), Andhra Pradesh, 522601.

### PROFILE

- Over one year of professional experience as a front end developer leveraging HTML, CSS, JavaScript and React to craft efficient and visually appealing user interfaces. Proficient in translating design mockups into pixel-perfect, responsive web layouts.
- I am Proficient in building responsive and efficient user interfaces with a strong grasp of component-based architecture and state management. Adept at collaborating with cross-functional teams to deliver high-quality, user-centric web application.

### PROFESSIONAL EXPERIENCE

#### Innova Solutions

January 2023 –  
present  
Hyderabad, India

##### Junior Software Engineer

- While working on React, some of the features I contributed to included implementing interactive and dynamic user interfaces, managing state efficiently, Incorporating responsive design principles, and integrating seamless data flow.
- I also focused on optimizing the performance of components, handling client-side routing, and ensuring cross-browser compatibility.
- Additionally, I actively participated in the integration of third-party libraries and API's to enhance the overall functionality of the application.

June 2022 –  
December 2022  
Hyderabad, India

##### Trainee

- I acquired foundational skills in HTML, CSS, JavaScript, and React. This encompassed a comprehensive understanding of web development fundamentals, including the creation of stylish and responsive interfaces using CSS and HTML.
- I also gained proficiency in client-side scripting with JavaScript and applied this knowledge to build dynamic user interfaces.
- Additionally, I received hands-on training in React, mastering its component-based architecture and its role in creating efficient and interactive web applications.
